Always at the forefront of progress

Elevation is a unique venting unit with a balance system. This ergonomic doorglass opens and closes easily as a result of this balance system, which allows for better control as well as ensuring user safety.

Ergonomic

- To open, a light upward movement is sufficient aided by a balance system (less than 10 lbs opening force).
- Its two grip points help with raising and lowering.

Safe

- The central lockset creates a better seal.

Aesthetic

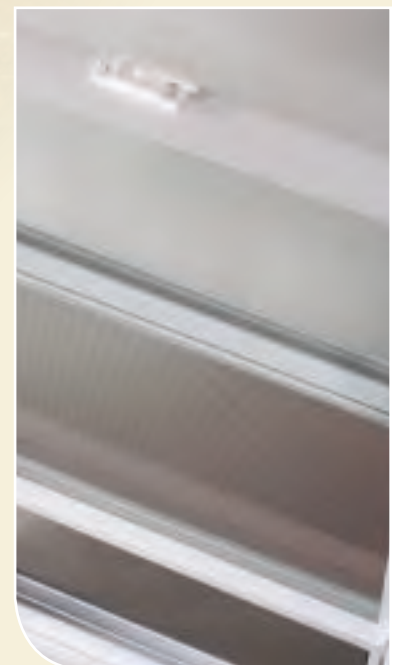

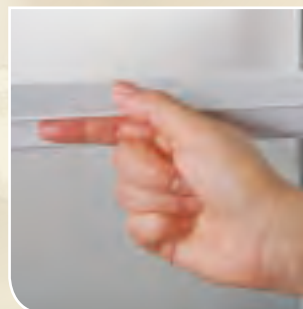

- A large selection of glass is available.

Convenient

- Its mobile multi-position sash with no fixed stop point ensures that the doorglass can be raised or lowered to the desired level.
- Its 50/50 split opening optimizes ventilation.

Eliminates the need for a screen door.

Meets CSA A440 window standard: air A3; water B4; wind C3
(U.S. equivalence AAMA 101-93 VS R-55)
