

Carbon Steel Frame Windows & Doors

GEM Windows & Doors is a leader in the window and door retail, installation and manufacturing business for 60 years. As specialists GEM is proud to introduce its newest product line of Carbon Steel Frame windows, doors and wall units. Thermally broken windows and entry doors for exterior use as well as single pane units for internal spaces and appliances such as office doors, wall dividers and accent pieces.

Each piece is an architectural metalwork, custom manufactured with the highest quality German extruded carbons steel, seamlessly hand welded and finished with precision, and expertly installed into our customers homes and businesses. GEM's trademark is the attention to detail throughout the entire process.
